

Here's what I'm thinking
for the responsive navigation.

Once the user clicks on the 3-lined
button in upper left corner,
the navigation will slide-in from the left side.

The plugin download link:

<http://tympanus.net/codrops/2013/08/13/multi-level-push-menu/>

I like Demo#2:

<http://tympanus.net/Development/MultiLevelPushMenu/index2.html>
